

## Popular Videoscope Options

Machida Videoscopes boasts remarkably small diameters. Our scopes listed can be used with all of our digital processing units, DPU 7-5050, DPU 7-6060, and DPU 7-7070 with exception of the VSC-1.9-100N, which can be paired with a tablet or your personal laptop.

We also offer customizable options that include a multitude of diameters and lengths.

Contact us today for more information on our innovative product line.
